

Honda Pioneer 1000 Trailer Out

Thank you for purchasing XTC Power Products Trailer Adapter. Our Kit is Plug & Play™ and plugs into the factory rear light harness.

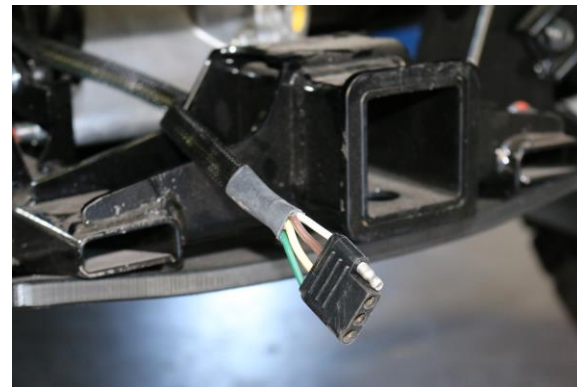

Please read the instructions fully and familiarize yourself with the components before starting the install. Remember that these are basic instruction and you can install in other locations if needed.

NOTE: When installing make sure that wires are run away from any hot or moving parts and properly secured.

1. Unroll the Harness, start in the rear center under the tailgate.
2. Install the Harness, under the rear of the car is a 6-way connector, unplug the connector by pushing in on the tab on the left side facing the front of the car. Plug our harness inline.

3. Run the wire down to the trailer hitch.

4. Verify operation of adapter and secure installed cable with supplied cable ties
