

POLARIS POWER OUT ADAPTERS

Thank you for purchasing XTC Power Products 4TL series Plug & Play Power Adapter for Auxiliary lighting like License Plate Light, whip or chase light. These adapters fit Polaris UTV's that have LED Taillights with a 4 Pin Connector, model wiring varies.

Please read the instructions fully and familiarize yourself with the components before starting the installation. Quick Install Guide.

This adapter interfaces at either taillight or center rear light- Unplug either the Right or Left or center light and plug our connector into the light and the factory connector into our adapter (in-line)

WARNING! Keep the power wire away from any hot or moving parts.

Run the adapter power wires to License Plate Light or Whip Light or other light.

Strip 1/4" off the wires and using the supplied butt connectors attach to lighting.

Black wire is ground.

Red wire is Running Light Positive out.

Orange wire if STOUT model, Brake Light out.

Using a heat gun heat the butt connectors at both ends to seal the connections.

Using the supplied cable ties, secure the power wire to the car once again making sure that the wire is kept away from any hot or moving parts.
