

# Polaris Ride Command Power Adapter

Thank you for purchasing XTC Power Products Power Adapter for License Plate Light or Whip Light.

**For more details on installation go to [www.xtcinstall.com](http://www.xtcinstall.com)**

Please read the instructions fully and familiarize yourself with the components before starting the install. Quick Install Guide.

Unplug OEM light connector located on driver's side rear corner near along the frame tube.

Plug the adapter into both OEM connectors.

**WARNING! Keep power wire away from any hot or moving parts.**

Run the adapter power wires to License Plate Light or Whip Light.

Strip 1/4" off the red and black wires

Attach the red power wire to the positive wire on the light and the black wire to the negative using the supplied heat shrink butt connectors.

Using a heat gun heat the butt connectors at both ends to seal the connections
